What To Wear

A great senior picture begins with careful selection of the proper clothing. If the clothing dominates, it will draw attention away from the subject – **you!** Clothing that does not attract attention is the ultimate goal. Proper clothing choices can make the difference between a beautiful portrait and just another picture.

Keep It Simple

Solid colors are best. Choose colors that compliment your skin tone, eyes, hair, etc.

- Avoid patterns, especially horizontal lines.
- Avoid clothing that shows large logos, words, graffiti
- Classic styles will stand the test of time and your portraits will be enjoyed for generations to come.

Mix It Up!

Bring trendy clothes, high heels, boots, accessories, and your classic clothing choice for the ultimate senior picture experience. With our new backgrounds and experienced photographers we'll be sure to make you look your best!
